Leprecon wins “WFX New Products” award!

HAMBURG, MI USA – November 2007

Leprecon’s new LDS-610 Dimmer Stick has walked away with yet another award, this time for Best Lighting Equipment in the Theatrical Dimmer category. The award was presented at the 2007 WFX show held in Atlanta GA October 25-26th. The Worship Facilities Expo focuses on a wide range of technology including lighting and audio/visual for houses of worship. With over 5000 attendees and over 400 exhibitors, WFX is quickly becoming a must attend for anyone involved in the House of Worship market.

The LDS-610 also won Best Product award at InfoComm ’07, which was held June 15-21st in Anaheim CA. InfoComm International® is the largest audiovisual and information communications tradeshow in the world with over 800 exhibitors.

Designed as an installation product where limited space and available power are an issue, the LDS-610 dimmer stick was introduced in the fall of 2006 and is continually being specified for all types of venues since first shipping in December 2006.

Leprecon, LLC manufactures a complete line of dimming and control for live entertainment and permanent installations. Control includes architectural wall stations, memory consoles and moving light consoles. Architectural dimming systems, tree-mount and rack mountable dimmer packs as well as complete custom dimmer and power distribution racks built to customer’s specifications.

For more information please contact Leprecon, LLC at 1-810-231-9373, via e-mail at lepls@leprecon.com or visit www.leprecon.com.
